

Technical information

Eventhall

Audio

- High-end audio system for the highest demands in the conference area (speech)
- Shows and performances at an international level are also possible without any problems
- Wireless microphones
- Stage monitoring
- Computer-supported acoustic optimisation
- Zone control
- Digital control room (Yamaha incl. Rio)
- Various control positions possible
Remote control via iPad
Networking to the other room offerings

Video

The centrepiece of the entire technology is the impressive LED wall:

- 7 × 4 metre LED video wall
- 16 : 9 format
- Full HD
- Scalable
- Picture in picture (PIP)
- Video server and control centre
- Neutral laptops available (player)
- Additional screens (55“, 70“ and 82“) can be

ordered as an option

- We have the option of recording with cameras; for live broadcasts or on demand
- Networking with the other JED rooms

Lightning

- In addition to impressive show lighting, the lighting system also offers area lighting with subtle colour moods for decorative lighting or entrance or interval lighting
- Stage lighting (front and backlight)
- Stage show lighting with state-of-the-art moving lights
- Hall lighting
- Decoration and mood lighting (hall)
- Special buffet lighting
- Mobile control room (MA Lighting)
- Pre-programmed scenarios

Stage

- Our stage is always fixed in place and is 9 metres wide and 80 cm high
- Thanks to its modular design, however, there are virtually no limits to its flexibility. Additional platforms (risers) or extensions in depth, for example

for a catwalk, are possible

- Stairs or steps are available and can fulfil the legal requirements
- 9 × 4 × 0.8 m (incl. Molton)
- Good visibility right to the back rows
- Flexible design (conversion costs etc. must be budgeted for if the design differs from the standard setup)
- No set-up costs thanks to fixed standard placement
- Can be extended

Stage equipment

- Our on-site technical warehouse enables us to optimally support many event scenarios. This means no unnecessary transport costs for additional material
- Top stage monitoring for audio and video
Lectern with integrated screen (e.g. for logo display)
- Wireless microphones (headset / handheld transmitter)
- Instrument microphones of all kinds
- Stage accessories (multicore, DI box etc.)

Rigging

A complete, motorised rigging system is divided into numerous sectors. In addition to the numerous fixed installations, there is enough space for additional lamps or decorative elements to be raised. Share your ideas and wishes with us. We will be happy to check whether it is possible to fulfil them within the legal requirements (depending on weight and standards). For safety reasons, the rigging systems may only be operated by JED technical personnel.

Digital Signage

Your brand in the foreground. Welcome your guests with impressive, large-scale adverts on our mobile signage screens. The integrated Magic Info Signage system opens up almost unlimited possibilities: Easily upload images, logos, videos, presentations or graphics and present your message in style. Let us advise you on how to make the most of the system's wide range of applications.

Employees

Our on-site technical team will accompany and support you from the conception to the dismantling of the last decoration after a successful event. We will be happy to advise you on how staff can be deployed most efficiently and in line with your needs. Thanks to the comprehensive basic technical installation, many of the usual technical costs are already eliminated. Depending on the duration and type of event, we will work with you to determine the necessary expenditure. This ensures that the event runs smoothly and avoids unnecessary costs.

We look forward to welcoming you and your guests!
